communicative process This dynamic understanding of common ground has been applied in many research projects addressing both L1 and intercultural interactions in recent years As a result several new elements aspects and interpretations of common ground have been identified Some researchers came to view common ground as one component in a complex contextual information structure Others analyzing intercultural interactions pointed out the dynamism of the interplay of core common ground and emergent common ground The book brings together researchers from different angles of pragmatics and communication to examine i what adjustments to the notion of common ground based on L1 communication should be made in the light of research in intercultural communication ii what the relationship is between context situation and common ground and iii how relevant knowledge and content get selected for inclusion into core and emergent common ground
