Bangladesh Compendium of Environment Statistics ,1997 *Bangladesh* Shekhar Shah, Quentin Wodon, Martin Ravallion, 1999-01-01 Reducing poverty is the central development challenge in Bangladesh This poverty assessment addresses several basic counting the poor questions Who are the poor How numerous are they Where do they live What are the characteristics of poor households How should we measure poverty Has poverty declined Has inequality increased In answering these questions this poverty assessment constructs a poverty profile for Bangladesh Although poverty has declined in Bangladesh in the 1990s the remaining challenges are enormous This report is part of a long term process of capacity building and mainstreaming of poverty analysis in Bangladesh Its findings suggest five pillars of a possible poverty reduction strategy Accelerating economic growth Promoting education for the poor Investing in poor areas Improved targeting of public expenditures and safety nets Forming further partnerships with NGOs Discussions with stakeholders NGOs the government poverty researchers and other donors in Bangladesh arising from this report will help to build support

for an action plan and more detailed policy and institutional changes for faster poverty reduction *Structural Change and Dynamics of Labor Markets in Bangladesh* Selim Raihan, 2018-08-29 Outlining important policy requirements for Bangladesh to become an upper middle income country the book presents research work conducted during the project Changing Labor Markets in Bangladesh Understanding Dynamics in Relation to Economic Growth and Poverty sponsored by the International Development Research Center IDRC Canada Bangladesh has experienced remarkable economic growth rates over the last decade The country has recently been upgraded from a low income country LIC to a lower middle income country LMIC as per the World Bank's classification system By 2024 the country also aspires to graduate from the United Nations list of least developed countries LDC The 7th five year plan sets an ambitious target of 8 percent growth in GDP by 2020 There are also steep development targets to be achieved under the Sustainable Development Goals SDGs by 2030 All these will require an enormous leap forward from the current level of economic growth rate and sustaining it in the future The situation also calls for considerable structural change in the economy facilitating large scale economic diversification Rapid expansion of labor intensive and high productivity sectors both in the farm and nonfarm sectors is thus crucial for Bangladesh Further this should take place in conjunction with interventions to enhance productivity jobs and incomes in traditional and informal activities where there are large pools of surplus labor Given its relevance for Bangladesh and applicability to many other developing countries the book offers a unique and pioneering resource for researchers industry watchers as well as policy makers
