

1000 Word Essay

Howard Moss was an important practitioner of formal verse in the mid-twentieth century. He also had an uncanny ability to envision—and thereby in his poems to transform—nature into the environment created by humanity, bringing it into the realm of civilization; he strove to *formalize* nature, in keeping with his view of what poetry should be. He once remarked, "What my poems are really about [...] is the experience of hovering between the forms of nature and the forms of art" (Leiter 29). Moss set an example for his generation among poets who believed in explicit order, and for later poets who have identified themselves with NEW FORMALISM. He was also the poetry editor at *The New Yorker* magazine from 1950 until shortly before his death, a position that allowed him to orchestrate much of mainstream American writing.

Moss was born and raised in New York City. In 1942, he won *Poetry* magazine's Janet Sewall David Award for his own poetry. His first book was published in 1946. He was inducted into the American Academy and Institute of Arts and Letters in 1968, and won the National Book Award for poetry for his *Selected Poems* in 1971. His *New Selected Poems* (1984) was awarded the Lenore Marshall / *Nation* Poetry Prize in 1986, a year when he received a fellowship from the Academy of American Poets.

All of Moss's work possesses a subtle finish. His early and middle poems are end-rhymed and metered, his later work freer—but all of it has a striking regularity of meter and tone. The prevalent themes in Moss's work involve fundamental issues such as change in life, human relationships, loss, and death. He writes ably of "the difficulty of love, the decay of the body, the passing of time, and the inevitability of death," all set against "the inexhaustible beauty of the natural world," as Dana Gioia has observed (102). He is, in fact, a great elegist who can portray attachment and loss with stunning acuity through graphic simplicity and bitter irony.

Moss's finely crafted verse is matched by his willingness to account for the peripatetic and otherwise insignificant details of living, making them at times monumental. In his work the truth peeks out through artifice.
