L Towne

Biology Paper 2014 Swaziland:

Analysis of Eswatini's Wildlife Policies and Laws Didi Wamukoya, Manene Thwala, 2017-10-18 Swaziland has a long history of conservation dating back to pre colonial and colonial times The government remains committed to wildlife conservation having enacted laws that protect wildlife and their habitat and created institutions to enforce those laws This commitment extends to the regional and international sphere where Swaziland is a party to various regional international instruments that ensure conservation of wildlife as well as facilitating wildlife law enforcement Despite all the government's efforts there are still gaps in the various laws that need to be addressed in order to ensure proper protection of wildlife in the country This analysis found that the wildlife laws are very fragmented leading to a fragmentation in the institutional framework Fragmented laws lead to overlapping legal provisions and lack of coordination and confusion in enforcement of those laws The laws are also very dated and do not address the current challenges facing wildlife The penalties for wildlife offences are quite low and this could be attributed to the fact that the laws were enacted when wildlife crimes had not yet escalated to the levels that we are witnessing today The laws also do not fully implement the international requirements of the instruments to which Swaziland is a party They do not for instance address organised crime and civil forfeiture of proceeds of crime Some or all of these challenges have led to wildlife crimes having a low profile in Swaziland and most often being treated as misdemeanours by the courts This review recommends that to address the challenges and strengthen wildlife legislation in Swaziland the profile of wildlife crimes in the country be raised so that they hold the same weight as other serious crimes the wildlife legislation be updated consolidated and harmonised the institutional framework be harmonised with clear coordination mechanisms the penalties for wildlife offences be enhanced a specific law criminalising organised crime be enacted and anti money laundering laws be updated to address civil forfeiture of illegal assets and proceeds of crime It is also recommended that local communities living next to protected areas be engaged and sensitised on the benefits of conservation and the repercussions of wildlife crimes

The Climate-Smart Agriculture Papers
Todd S. Rosenstock, Andreea Nowak, Evan Girvetz, 2018-11-28 This book is open access under a CC BY 4.0 license This volume shares new data relating to Climate Smart Agriculture CSA with emphasis on experiences in Eastern and Southern Africa The book is a collection of research by authors from over 30 institutions spanning the public and private sectors with specific knowledge on agricultural development in the region discussed The material is assembled to answer key questions on the following five topic areas 1 Climate impacts What are the most significant current and near future climate risks undermining smallholder livelihoods 2 Varieties How can climate smart varieties be delivered quickly and cost effectively to smallholders 3 Farm management What are key lessons on the contributions from soil and water management to climate risk reduction and how should interventions be prioritized 4 Value chains How can climate risks to supply and value chains be reduced and 5 Scaling up How can most promising climate risks reduction strategies be quickly scaled up and what are
