

6 ROLES AND RESPONSIBILITIES

This policy requires multiple interagency actions as well as departmental actions to ensure successful implementation. The NSTC Subcommittee on Biometrics and Identity Management is the responsible party for developing interagency consensus and facilitating agency adoption in support of this policy. By participating actively in the Subcommittee, agencies are assured that their requirements will be considered in the interagency review and determination of which standards should be adopted.

The NSTC Subcommittee on Biometrics and Identity Management is the responsible party for the:

- Coordination of USG activities in national and international voluntary biometric standards development;
- Establishment of model criteria for the adoption and maintenance of biometric standards;
- Interagency analysis, determination and promulgation of recommended standards for USG adoption;
- Facilitation of access to adopted standards by USG personnel; and
- Identification of research, development, test and evaluation needs that are required to enable this Policy, and prioritization of those needs in the Subcommittee's ongoing HDT&E agenda development.

The roles and responsibilities of agencies with biometric programs are to:

- Support the Subcommittee's designated responsibilities by ensuring appropriate agency personnel and resources are provided;
- Ensure the use of appropriate biometric standards from the registry of USG recommended biometric standards internally and in awarded projects, unless the standards can be documented to be operationally inadequate or are locally sustainable for the anticipated benefits;
- Identify agency-specific requirements on the use of biometric standards (capture, use, dissemination, and disposition of biometric data) consistent with The National Biometric Challenge; and
- Ensure compliance, where applicable, with the requirements of the Privacy Act of 1974 and the E-Government Act of 2002¹ when using standards-based biometric image or template data, as it is considered to be personally identifiable information.

¹ as well as other applicable privacy-related laws and agency policies
