definitive guide these traits are portrayed in hundreds of stunning color photographs showing raptors up close in flight and in action fighting hunting and nesting These gorgeous photographs enhance the comprehensive authoritative text which goes far beyond identification to cover raptor ecology behavior conservation and much more In returning to his forte and his first love Pete Dunne has crafted a benchmark book on raptors the first place to turn for any question about these highly popular birds whether it s what they eat where they live or how they behave **Raptors** Keith L. Bildstein,2017-05-02 Raptors are formally classified into five families and include birds such as eagles ospreys kites true hawks buzzards harriers vultures and falcons that are familiar and recognized by many observers These diurnal birds of prey are found on every continent except Antarctica and can thrive in seemingly inhospitable spots such as deserts and the tundra They have powerful talons and hooked beaks for cutting and tearing meat and keen binocular vision to aid in their hunting prowess Because of their large size distinctive feeding habits and long distance flight patterns raptors intrigue humans and have been the subject of much general interest as well as extensive scientific research Keith L Bildstein has watched and studied raptors on five continents and is well prepared to explain their critical importance not only as ecological entities but also as inspirational tokens across natural and human dominated landscapes His book offers a comprehensive and accessible account of raptors including their evolutionary history their relationships to other groups of birds their sensory abilities their general natural history their breeding ecology and feeding behavior and threats to their survival in a human dominated world Biologically sound but readable **Raptors** is a nontechnical overview of this captivating group It will allow naturalists birders hawk watchers science educators schoolchildren and the general public along with new students in the field of raptor biology to understand and appreciate these birds and in so doing better protect them **Life Histories of North American Birds of Prey** Arthur Cleveland Bent,1937 **Raptors** Marjorie Luckey,2014-04-15 This delightful and dramatic portrait collection reveals birds of prey as we never experience them intimate and up close Photographed in Traer Scott s signature style these fascinating hunters reveals their enigmatic beauty and grace Seventy spectacular color images present twenty five different species from the familiar to the exotic and endangered hawks owls falcons a bald eagle kestrels a Mississippi Kite a turkey vulture and more Joining their elders are a fluffy baby vulture and adorable baby and juvenile great horned owls The birds in this remarkable collection emerge as personalities not just types wise and quizzical serene and fiercely self possessed A personal introduction describes Scott s process and connection to the birds and captions detail the characteristics and habits of these incredible winged creatures **Peregrine Spring** Nancy Cowan,2016-03-01 New York Times Bestseller **Peregrine Spring** Nancy Cowan s memoir of her thirty years living intimately with raptors gives us a new perspective on the relationship between humans and the natural world Cowan shares her experiences running a world famous falconry school and the lessons she s learned from her birds From retrieving her falcon from the local police lock up to finding her husband in bed with a gyrfalcon to a heart breaking race to save her young peregrine from attack by a wild hawk Cowan s life is a constant

ever changing adventure Cowan s birds have immersed her so much into their world that she has found herself courted by a Goshawk and bossed about by a Harris Hawk The book carries her readers along so they too meet hawks and falcons in ways they never imagined possible      **Birds of Prey of the World** Friedhelm Weick,Leslie Brown,1980      *Birds of Prey* Leslie Brown,1997
