

CHAPTER 5

JOURNALIZING TRANSACTIONS

(1st Step of the Accounting Process)

Learning Objectives:

After studying this chapter, we should be able to:

- 1. understand that by knowing the source documents as the first sequential step, we would be able to determine the value received and value parted with, leading to the journalizing process;*
- 2. know what are the books of accounts, the use of a General Journal and a General Ledger;*
- 3. find out that the charts are the same with the accounts that are found in the General Ledger;*
- 4. increase our learning through the illustrative Problem: Laundry Services wherein we would be able to see the actual Journalizing procedures and the correction of an erroneous journal entry.*

SOURCE DOCUMENTS

The actual sequence of events begins with the identification of transactions. What transactions are considered as accountable and what are not. The rule is, only transactions and events which are of *financial bearing* to the business are being recognized.

The basis of identifying transactions are the supporting business documents that are on the file or yet to be filed as evidence of transactions to assure the reliability and verifiability of records. The most common documents of a service concern business are customers' and suppliers' sales invoices, official receipts, purchase orders, receiving reports, delivery receipts, cash vouchers, checks, etc. After identifying, follows next is analyzing. By *analyzing*, we have to ask these questions to ourselves. "What is the *value received* and the *value parted with* in these particular transactions?" While we answered that mentally, we then come to measuring of the transaction. This time, we used the peso as our financial denominator.
