

Cost Accounting Essay

Accounting is the system of recording and summarizing business and financial transactions and analyzing, verifying, and reporting the results; (Merriam–Dictionary, 2012). Cost accounting is described as the evaluating approach to the overall cost of when the business evaluates the cost that is associated with the business. Cost accounting consists of the identification, measurement, collection, analysis, preparation, and communication of financial information (Khan, 2010). In this paper, I will discuss the reasons why cost accounting is important to businesses and what role it plays in order for them to succeed. I will also discuss the different methods of cost accounting and how are they used? What does operating a budget help a [show more content](#)...

The company depends on management and their choices. Trusting that their decisions are decisions that are in the best interest for the company and will only increase the company's profits and make them a profitability company

The use of cost accounting is very important in management level positions and anyone whose role is in accounting and the accounting process. Although there are multiple benefits of cost accounting, there is a benefit that helps turn data into knowledge information that is helpful in assisting with the measuring the performances, reducing and managing cost, as well as determining the price for goods and services (M. Khan , 2010).

There are so many different methods of cost accounting; different industries use different methods for ascertaining cost to their products. The following are methods of cost accounting and their roles are summarized as follows:

Batch Costing:The identification in which the assignment of cost \incurred in completing the manufacture of products or services which cannot be identified to specific products or services within each group ("Finance library," 2012). This is usually involving industries that manufacture clothing, furniture, and cars.

Process Costing:Is used in situations where job costing cannot be used; for mass production of similar products, where the costs associated with individual units of the
