## **Bece 2016 All Question:**

**The Impacts of Language and Literacy Policy on Teaching Practices in Ghana** Philomena Osseo-Asare, 2021-03-15  
This text critically examines changes in Ghanaian language and literacy policy following independence in 1957 to consider its impacts on early literacy teaching. By adopting a postcolonial theoretical perspective, the text interrogates the logic behind policy changes which have prioritised English local language or biliteracy. It draws on data from interviews with teachers and researcher observation to demonstrate how policies have influenced teaching and learning. Dr Osseo Asare's findings inform the development of a conceptual framework which highlights the socio-cultural factors that impact the literacy and biliteracy of young children in Ghana, offering solutions to help teachers combat the challenges of frequent policy changes. This timely monograph will prove to be an essential resource not only for researchers working on education policies, teacher education and English language learning in postcolonial Ghana, but also for those looking to identify the thematic and methodological nuances of studying literacy and education in postcolonial contexts.

**Learning, Design, and Technology** J. Michael Spector, Barbara B. Lockee, Marcus D. Childress, 2023-10-14  
The multiple related fields encompassed by this Major Reference Work represent a convergence of issues and topics germane to the rapidly changing segments of knowledge and practice in educational communications and technology at all levels and around the globe. There is no other comparable work that is designed not only to gather vital current and evolving information and understandings in these knowledge segments but also to be updated on a continuing basis in order to keep pace with the rapid changes taking place in the relevant fields. The Handbook is composed of substantive 5 000 to 15 000 words, peer-reviewed entries that examine and explicate seminal facets of learning theory, research and practice. It provides a broad range of relevant topics, including significant developments as well as innovative uses of technology that promote learning performance and instruction. This work is aimed at researchers, designers, developers, instructors and other professional practitioners.
