EVOLUTION: A Grand Monument to Human Stupidity Daniel Jappah,2007-09-01 The theory of evolution has
changed so much claiming that humans are closely related genetically to chimps mice donkeys and even fish that the theory
is now a blurred mess masquerading as a scientific fact It s a theory built on countless speculations scientific fraud and
multiple conflicting theories Garnering the evidence from biology chemistry genetics geology history paleontology and
physics evolution is exposed as a racist philosophy and a false science that provided the scientific justification for the
Holocaust and other genocides including the plot to silently exterminate American minorities through abortion and birth
