Beam Me Up God:

Preaching to a Multi-generational Assembly Andrew-Carl Wisdom, 2004 With the acceleration of technological change new and distinct generations are created faster than before Generational boundaries become more fluid Multiple age groups have different generational mindsets distinct worldviews and varied spiritual needs How then do preachers speak to congregations that comprise four to five separate generations *Preaching to a Multi generational Assembly* addresses how to effectively and credibly preach to all generations at the same time In *Preaching to a Multi generational Assembly* Andrew Cal Wisdom offers a credible new homiletic model to make Catholic preaching more exciting accessible and effective for both the assembly and preacher by making it more generationally relevant He reflects upon the current state of preaching through Catholic and Protestant voices He argues from communication theory that generation is a subculture like ethnicity and race and should be seriously considered in homiletic preparation He applies contemporary marketing segmentation theory to preaching in proposing a qualified generational segmentation of the Sunday assembly Finally he combines both theories to demonstrate both the opportunity and viability of intergenerational preaching in a Catholic context Chapters are Why Effective Preaching Is a Priority The Problem The Genesis of the Catholic Homily Intergenerational Preaching as a Sacred Dance Between Culture Language and Meaning What the Preacher Can Learn from the Marketer The Catholic Sacramental Imagination A Generational Bridge Does It Work The Mechanics of Intergenerational Preaching and So What Includes tales graphs and a conclusion with practical suggestions on how to become an effective and credible intergenerational preacher

God Yes? God No? Frans Komhoff, 2024-07-16 Can science rule out God To properly understand the history of the universe and humanity one can turn to any of the three religions discussed herein but gaining insights into the theories of scientists like Charles Darwin Albert Einstein and Stephen Hawking is a much better idea Komhoff takes the interested layman past God and through a series of eminent scientists on a timeless journey spanning fourteen billion years from the Big Bang to the present day In understandable steps the author guides the reader through the various fields and introduces them to theories contradictions philosophers black holes evolution logic relativity God proofs and the Big Bang singularity The appendices add in understandable language in depth introductions to the fascinating theories the author discusses According to Komhoff we live in the Cosmos of Coincidence This sheds a completely new light on the Big Questions What is man Where do we come from What is our place in the cosmos What is the meaning of our existence Where are we going And last but not least is there a God With present day knowledge his final conclusion is yes science can rule out God as the creator of man and the universe but no science cannot rule out the existence or non existence of God
