Numbered Sheet Music for 8-Note Steel Drum with Simple Traditional African Songs: Beginner's Level Helen Winter, The steel tongue drum and the handpan are percussion musical instruments designed to help you focus on your feelings sensations and body No previous training or skills are necessary to enjoy these fascinating instruments Playing drums can relieve stress and disappointment Because most tongue drums include and are tuned to involve the notes of the main octave all songs from this book are possible to play in one octave If you have less than one octave of keys on your drum you may need to skip some songs If you have more than 8 keys for example an 11 or 15 note handpan this book would be a great start to your drum experience Yet each tongue drum is very different and it is impossible to accommodate songs for all kinds of tongue drums in one music book This songbook was written to help the absolute beginner whether child or adult learn to play in a simple and easy way that requires no knowledge of reading music If you are a beginner playing by note can be difficult It is easier to follow number coded circles with note numbers In Africa singing always involves dancing so the emphasis is placed more firmly on rhythms than on melody or harmony Due to their clear rhythmic patterns African songs are an ideal material for any musician Its main task is not to be reproduced but to get everyone involved since music by definition is the expression of emotional states with the help of sounds of a certain frequency and rhythm An indication of the country of origin of the song in this tongue drum meditation music book is an approximation because many traditional cultures cross current national borders The language in which the song is sung is more important and it can be used in various countries Most songs have been simplified for adult beginners Since African music assumes improvisation and variation we recommend using this sheet music only as a guide The most important thing is to listen and repeat the recordings linked to the QR code

Hip Grooves for Hand Drums Alan Dworsky,Betsy Sansby,2012-08-05 You don t need a drumset to lay down a groove All you need is one drum It can be a djembe a conga or anything else where you can fit both your hands on the drumhead Whether your goal is

to play in a band jam in the park play in a church group or just drum along with your favorite CDs this book will show you how step by step Please note audio files of the CD that comes with the print version of this book are not included in this ebook version but are available separately
