Economics Paper2 Gradememo November2013:

Failed Promises David M. Konisky,2015-03-27 A systematic evaluation of the implementation of the federal government s environmental justice policies

Corporate Finance Law Louise Gullifer,Jennifer Payne,2015-10-22 The second edition of this acclaimed book continues to provide a discussion of key theoretical and policy issues in corporate finance law Fully updated it reflects developments in the law and the markets in the continuing aftermath of the Global Financial Crisis One of its distinctive features is that it gives equal coverage to both the equity and debt sides of corporate finance law and seeks where possible to compare the two This book covers a broad range of topics regarding the debt and equity raising choices of companies of all sizes from SMEs to the largest publicly traded enterprises and the mechanisms by which those providing capital are protected Each chapter analyses the present law critically so as to enable the reader to understand the difficulties risks and tensions in this area of law and the attempts made by the legislature and the courts as well as the parties involved to deal with them This book will be of interest to practitioners academics and students engaged in the practice and study of corporate finance law

Restoring the Promise Richard K. Vedder,2019-05-01 Higher education in America is in crisis Costs are too high learning is too little and the payoff to students and society is increasingly problematic In *Restoring the Promise* Richard Vedder shows how the precarious position of colleges and universities results from a mostly unsuccessful expansion of governmental involvement in the academy especially at the federal level The book examines today s most serious issues in higher education including free speech and academic freedom tuition and other costs culture and curricula governance gender race and diversity due process admissions student loans and much more It diagnoses problems and identifies solutions For example the total cost of college per student in the United States is now higher than in any other country When combining the monetary costs of college with the opportunity costs of losing years of labor to the economy the true cost of higher education to American society well exceeds one trillion dollars annually Yet despite American higher education s immense price tag students are learning less than ever before and continue to be underemployed The book discusses the three I s of university reform information incentives and innovation Without information it is impossible for taxpayers and governing authorities to ensure that public education spending truly furthers the broader interests of society rather than the narrow interests of faculty and administrators Shaping incentives for management would help to reduce costs and improve quality Business practices such as Responsibility Centered Management RCM for example allow profit to motivate efficiency and encourage learning outcomes And expanding the use of innovation in technology and open online courses along with relinquishing old rules such as tenure and three month summer vacations offer new hope for institutions of higher education The book discusses such additional reforms as the following Ending or revising the federal student financial aid program Giving departments or even professors a share of overall revenue based on student enrollments in their classes Departments or professors would then be required to pay their share of travel building rental maintenance utilities and other such costs

from the revenues they receive Providing earnings data on former students by college five ten or fifteen years after matriculation Prospective students and parents as well as lawmakers and oversight officials would be assisted regarding school successes and failures Increasing faculty teaching loads Instituting three year degrees and year round instruction Ending discrimination against for profit schools Ending grade inflation Ending speech codes and other barriers to academic freedom Ending affirmative action and related diversity programs And more *Extending the Ground of Public Confidence* Janie Hubbard,2019-09-09 This book provides a resource for teaching civil liberties in K 12 social studies and teacher education It covers issues like freedom of speech privacy and voting rights with historic and modern perspectives Each chapter includes inquiry based learning activities to help students develop critical skills and uphold civil liberties

Advances in Accounting Education Thomas G. Calderon,2021-12-02 Advances in Accounting Education features 13 papers surrounding four themes curriculum and pedagogical innovations faculty reflections on teaching accounting during the COVID 19 pandemic research on passing professional exams in accounting and historical underpinnings and the choice of taxation as an area of specialization From Head Shops to Whole Foods Joshua C. Davis,2017-08-08 In the 1960s and 70s a diverse range of storefronts including head shops African American bookstores feminist businesses and organic grocers brought the work of the New Left Black Power feminism environmentalism and other movements into the marketplace Through shared ownership limited growth and democratic workplaces these activist entrepreneurs offered alternatives to conventional profit driven corporate business models By the middle of the 1970s thousands of these enterprises operated across the United States but only a handful survive today Some such as Whole Foods Market have abandoned their quest for collective political change in favor of maximizing profits Vividly portraying the struggles successes and sacrifices of these unlikely entrepreneurs From Head Shops to Whole Foods writes a new history of social movements and capitalism by showing how activists embraced small businesses in a way few historians have considered The book challenges the widespread but mistaken idea that activism and political dissent are inherently antithetical to participation in the marketplace Joshua Clark Davis uncovers the historical roots of contemporary interest in ethical consumption social enterprise buying local and mission driven business while also showing how today s companies have adopted the language but not often the mission of liberation and social change Who's who Among Students in American Universities and Colleges Henry Pettus Randall,1973 Resources in Education ,1981 *Guide to Microforms in Print* ,1996
