Routledge Handbook of the Economics of Climate Change Adaptation Anil Markandya,Ibon Galarraga,Elisa Sainz de Murieta,2014-01-03 Climate change is one of the greatest challenges facing human kind owing to the great uncertainty regarding future impacts which affect all regions and many ecosystems Many publications deal with economic issues relating to mitigation policies but the economics of adaptation to climate change has received comparatively little attention However this area is is critical and a central pillar of any adaptation strategy or plan and is the economic dimension which therefore merits the increase in attention it is receiving This book deals with the difficulties that face the economics of adaptation Critical issues include uncertainty baselines reversibility flexibility and adaptive management distributional impacts discount rates and time horizons mixing monetary and non monetary evaluations and limits to the use of cost benefit analysis economy wide impacts and cross sectoral linkages All of these are addressed in the book from the perspective of economics of adaptation Other dimensions of

adaptation are also included such as the role of low and middle income countries technology and the impacts of extreme events This timely book will prove essential reading for international researchers and policy makers in the fields of natural resources environmental economics and climate change [OECD Economic Surveys: France 2013](#) OECD,2013-03-19 OECD s 2013 Economic Survey of France examines recent economic developments policies and prospects and includes special chapters covering taxes and transfers and the economic situation of young people *Redesigning the Global Seed Commons* Christine Frison,2018-11-08 There is much current controversy over whether the rights to seeds or plant genetic resources should be owned by the private sector or be common property This book addresses the legal and policy aspects of the multilateral seed management regime First it studies in detail the International Treaty on Plant Genetic Resources for Food and Agriculture the Treaty in order to understand and identify its dysfunctions Second it proposes solutions using recent developments of the theory of the commons to improve the collective seed management system of the Treaty a necessary condition for its member states to reach the overall food security and sustainable agriculture goals *Redesigning the Global Seed Commons* provides a significant contribution to the current political and academic debates on agrobiodiversity law and governance and on food security and food sovereignty by analyzing key issues under the Treaty that affect the design and implementation of regulatory instruments managing seeds as a commons It also examines the practical legal political and economic problems encountered in the attempt to implement these obligations in contemporary settings In particular it considers how to improve the Treaty implementation by proposing ways for Contracting Parties to better reach the Treaty s objectives taking a holistic view of the human seed ecosystem Following the tenth anniversary of the functioning the Treaty s multilateral system of access and benefit sharing which is currently under review by its Contracting Parties this book is well timed to examine recent developments in the field and guide the current review process to design a truly Global Seed Commons

Public Finances in EMU, 2012 ,2012 The 2012 Report on Public Finances in EMU presents recent budgetary developments reports developments in budgetary surveillance proposes an analysis of the effect of fiscal multipliers on the possibility of self defeating fiscal consolidations and shows the relevance of fiscal frameworks for budgetary outcomes at the sub national level in the EU [The Economy of Green Cities](#) Richard Simpson,Monika Zimmermann,2012-11-06 This volume bridges the gap between the global promotion of the Green Economy and the manifestation of this new development strategy at the urban level Green cities are an imperative solution not only in meeting global environmental challenges but also in helping to ensure socio economic prosperity at the local level *Competition Law in times of Economic Crisis : in Need of Adjustment ?* Jacques Derenne,Massimo Merola,José Rivas,2013-12-02 Throughout this unprecedented crisis which is hitting all major economies in the EU the escalation of the Eurozone recession increasingly undermines public confidence in the ability of competitive markets to deliver positive outcomes A debate on the most appropriate way to enforce competition rules in light of the crisis is definitely useful A relaxed stance to competition

during difficult periods may be tempting and indeed this has often been the approach used in the past However the enforcement of competition rules is no less important during times of crisis than during normal periods It has also been argued that when public resources are stretched to the limit and businesses are struggling to survive competition authorities should seek to focus their limited resources on those anticompetitive practices which are most detrimental to consumer welfare such as cartels Indeed if over enforcement is perhaps undesirable when the economy is functioning well it will inevitably become more problematic during an economic downturn In addition business managers may be increasingly tempted to resort to anticompetitive practices when faced with economic hardship This book will appeal to judges and lawyers in competition law European law business corporate law and insolvency law the study of European competition law European institutions national competition authorities and companies
