The Practice of Chemistry Donald J. Wink, Sharon Fetzer-Gislason, Sheila McNicholas, 2003-03 Students can't do chemistry if they can't do the math. The Practice of Chemistry First Edition is the only preparatory chemistry text to offer students targeted consistent mathematical support to make sure they understand how to use math especially algebra in chemical problem solving. The book's unique focus on actual chemical practice, extensive study tools, and integrated media makes The Practice of Chemistry the most effective way to prepare students for the standard general chemistry course and bright futures as science majors. This special PowerPoint tour of the text was created by Don Wink. http://www.bfwpub.com/pdfs/wink/POCPowerPoint_Final.ppt 832KB

The Success Criteria Playbook John Almarode, Douglas Fisher, Kateri Thunder, Nancy Frey, 2021-01-08 Provide students a clear view of what success looks like for any process, task, or product. What does success look like for your students? How will they know if they have learned? This essential component of teaching and learning can be difficult to articulate but is vital to achievement for both teachers and students. The Success Criteria Playbook catapults teachers beyond learning intentions to define clearly what success looks like for every student, whether face-to-face or in a remote learning environment. Designed to be used collaboratively in grade-level subject area teams or even on your own, the step-by-step playbook expands teacher understanding of how success criteria can be utilized to maximize student learning and better engage learners in monitoring and evaluating their own progress. Each module is designed to support the creation and immediate implementation of high-quality, high-impact success criteria and includes templates that allow for guided and independent study for teachers. Extensive STEM-focused examples from across the K-12 STEM curriculum to guide teacher learning and practice. Examples of success criteria applied across learning domains and grades, including high school content, skills, practices, dispositions, and understandings. Ensure equity of access to learning and opportunity for all students by designing and employing high-quality, high-impact success criteria that connect learners to a shared understanding of what success looks like for any given learning intention.

Motivating ELLs: 27 Activities to Inspire & Engage Students Dr. Lora Beth Escalante, 2018-06 Motivating ELLs: 27 Activities to Inspire & Engage Students will guide readers through a unique approach of user-friendly strategies that help teachers inspire and connect to their English language learners. Dr. Escalante's book provides teachers with activities focused on developing meaningful relationships with students, an important key to motivation that is often neglected. Throughout these pages, readers will learn how to build off student interests to foster total engagement with academic content, breathe new life into content, and language objectives, capitalize on student and teacher creativity and innovation, and facilitate enjoyable content writing for all ages.
