Weaving Stories of Language Education with Narratives of Teachers and Learners Nami Sakamoto, Masako Nasu, Kazutake Kita, Masayuki Teranishi, 2025-09-26 This edited volume presents a collection of diverse narrative inquiries into the lived experiences of individuals engaged in English language teaching and learning. By foregrounding personal stories, the book sheds light on how educators and learners construct meaning, navigate challenges, and develop identities within the context of language education. Organised into three thematic sections: 1 narrative inquiry of language teachers, 2 narrative inquiry of language learners, and 3 self-authored narratives by language teachers, the volume showcases a range of narrative forms from research-based analyses to introspective personal accounts. This multiplicity of perspectives offers readers a comprehensive understanding of the human dimensions of language education. Set against the backdrop of English language education in Japan, the book provides valuable insights into the cultural and institutional contexts that shape teaching and learning experiences. It serves as a resource for scholars, educators, and students interested in narrative inquiry, language teacher development, and sociocultural aspects of language learning. By bringing together these varied narratives, the volume invites readers to reflect on the complexities of language education and the transformative power of storytelling in understanding educational practices.

Narrative Identity as a Condition for Authentic Legal Subjectivity Bartosz Wojciechowski, 2024-10-26 This book argues that omitting the component of narrative creates an irresolvable antinomy concerning the identity of the subject between the subject and identical copies of itself in different situations or between it

and the identical subject as a substantial illusion the elimination of which reveals the pure multitude of desires emotions and perceptions The starting point of the considerations presented here is the conviction that knowledge of one s own desires and preferred values is obtained by articulating a narrative identity through social interactions and mutually determined moral horizons that presuppose shared meanings and the possibility of consensus The book emphasizes the significance of personal narration and identity formation but also points out that collective narrative which is culturally and traditionally rooted is also one s own narrative It focuses on the issue of identity which is discussed today in numerous contexts and the understanding of which according to the author has important consequences including for the legal aspects of our lives as it concerns for example the rights of LGBTQ people or entities marginalized or excluded for various reasons The titular narrative identity of an authentic legal entity is related to opening ourselves to others but also to ourselves The interdisciplinary research perspective adopted in the book combines literary aspects philosophical sociological and theoretical legal considerations with an analysis of the jurisprudence of European tribunals

Beyond the People Zoran Oklopcic,2018-05-30 Beyond the People develops a provocative interdisciplinary and meta theoretical critique of the idea of popular sovereignty It asks simple but far reaching questions Can imagined communities or invented peoples ever be theorized without at the same time being re imagined and re invented anew Can polemical concepts such as popular sovereignty or constituent power be theorized objectively If as this book argues the answer to these questions is no theorists who approach the figure of a sovereign people must acknowledge that their activity is inseparable from the practice of constituent imagination Though widely accepted as important even vital for the development of political concepts the social practice of imagination is almost always presumed to operate either historically or impersonally but seldom individually Those who theorize the figures of popular sovereignty do not see that they are in effect conjurers of peoplehood This book invites constitutional international normative and other political and legal theorists of sovereign peoplehood to embrace the conjuring side of their professional identities as a way of exploring the possibility of moving beyond eternally recurring insolvable and increasingly irrelevant questions Instead of asking Who is the people What is the function of constituent power Where may the people exercise its right to self determination Beyond the People asks the reader to consider the prospect of a riskier and more adventurous theoretical road that opens with the question What do I as a theorist imaginer or conjuror of peoplehood assume anticipate and aspire to as I theorize the vehicles that mediate the assumptions anticipations and aspirations of others This question is examined throughout the book as it interrogates the idea of peoplehood beyond disciplinary boundaries showing how polemical visual affective conceptual and allegorical language critically shapes our idea of peoplehood It offers a nuanced account of the contested relationship between the social imaginary of peoplehood on the ground and the imaginative practices of the professional conjurers of peoplehood in the academy
