# COMMUNICATING WITH YOUR KIDS

### **Take time to listen to your child.**

Whenever your child is upset, you will need to use active listening to understand your child better and acknowledging that you are hearing what your child has to say. It can also help calm a situation and prevent a tantrum before it starts.

**Let your child know when you think she has done something good.** Praising your child is important in order to encourage good behavior. It can also be helpful to let your child overhear you praising him while talking to a relative or a friend. If the praise is sincere and honest, it can reinforce good behavior.

**Read with your children.** Reading helps strengthen your child's vocabulary, knowledge, and understanding of the world. It also creates opportunities for you and your child to spend time enjoying each other's company. It's never too early to begin reading to your child, and no book is too short.

**Make time to laugh and be silly.** A lot of parenting responsibilities are about taking care of your kids, keeping them well-fed and looking out for their well-being. Taking time to just talk to your kids to have fun with them shows how much you care about them and how much you want to be with them.

**Avoid distracted parenting.** When talking to your child, make sure to focus on talking to your child instead of doing something else while talking. It helps you focus and it makes your child understand that the conversation that you're having is a top priority.

**Communicating with Kids** Stephanie Davies-Arai, 2015-01-28 Confused by all the conflicting parenting advice you hear Not sure who is right or what to do Well relax and read this book Ever wondered why your child gets more upset the nicer you are Or why your child is always arguing with you doesn't listen or seems intent on doing the opposite of what you want Now you no longer have to worry Communicating with Kids has the answers This new book explains how so often children are not resisting our messages but the way we are sending them It demonstrates why some of the ways we communicate lead to exactly the opposite of the behaviour we want and provides methods to tweak your language and approach so that children are willing to help you So much of the parenting advice we hear works against a child's developing brain so this book shows you how to work with it instead which makes all the difference Once you understand the difference between what you are saying and what your child actually hears life with children becomes so much easier This book is all about communication because apart from that there's no other advice you need the best way to bring up your child is to be yourself and do it your way Communicating with Kids is a book guaranteed to help all parents whether they veer towards the methods of Penelope Leach or Supernanny or have never read a parenting book before It is not based on any parenting ideology but on genuine experience with a wide range of children It is a plain talking book that presents communication methods that work so parents gain the confidence to be themselves
