Ben was able to answer questions about school and his family. Ben's general affect appeared typical and happy. At times Ben appeared anxious and demonstrated repetitive behaviors, such as talking over the SLP while she was reading test questions, commenting on the picture before a question was asked, kicking his feet and legs, repeatedly tapping both his feet on the ground, staring around in his chair, and making very little eye contact. Ben frequently asked, "Is that the last one?" and at times appeared to have difficulty focusing on the task. Ben attempted all test questions, was well-motivated throughout testing, and did not require any breaks.
