Assignment To Earth:

Htrae Assignment-Earth Angel Elizabeth MacDonald Burrows,2007-01-01 During the recent centuries the Lord of the Stars has developed a deep concern over one of the smaller planets in his universe called Earth The planet is imprisoned by the enticements of worldly ways and a shadow of forgetfulness has covered the true nature of the humans They have little knowledge that they originated from the stars or that their destiny was pre ordained before the universe began Now there is a grave danger that Earth will be destroyed if it does not graduate and become divine before it reaches the asteroid belt The Lord decides it is time to intervene He creates the planet Htrae and projects the new planet into Earth s solar system to save its endangered sister The development of Htrae is entrusted to Ambassador Marius Chief Mediator for the Universe who will be aided by Sir Cellular Professor Biogenics and Master Ether Their mission is to prepare the inhabitants of Htrae called Starians for the execution of Operation Earth Angel About the Author Elizabeth MacDonald Burrows says This is a book for every human young or old who has ever wanted to know the mysteries of life without the burden of abstruse religious treatises over whelming philosophical analysis or heavy scientific theories **The Fold** Peter Clines,2015-06-02 A page turning science fiction thriller from the author of Paradox Bound and the Ex Heroes series Step into the fold It s perfectly safe The folks in Mike Erikson s small New England town would say he s just your average everyday guy And that s exactly how Mike likes it Sure the life he s chosen isn t much of a challenge to someone with his unique gifts but he s content with his quiet and peaceful existence That is until an old friend presents him with an irresistible mystery one that Mike is uniquely qualified to solve far out in the California desert a team of DARPA scientists has invented a device they affectionately call the Albuquerque Door Using a cryptic computer equation and magnetic fields to fold dimensions it shrinks distances so that a traveler can travel hundreds of feet with a single step The invention promises to make mankind s dreams of teleportation a reality And the scientists insist traveling through the Door is completely safe Yet evidence is mounting that this miraculous machine isn t quite what it seems and that its creators are harboring a dangerous secret As his investigations draw him deeper into the puzzle Mike begins to fear there s only one answer that makes sense And if he s right it may only be a matter of time before the project destroys everything A cunningly inventive mystery featuring a hero worthy of Sherlock Holmes and a terrifying final twist you ll never see coming The Fold is that rarest of things a genuinely page turning science fiction thriller **Telecommunications** ,1987 FCC Record United States.
