Wardrobe Sophie Benson, 2023-09-07. Sustainable Wardrobe gives you everything you need to cultivate a more sustainable, ethical, and planet-friendly wardrobe that is still easy, accessible, and affordable. Statistics show that how we are consuming, maintaining, and discarding our clothing is having a devastating effect on the planet. There are problems with every part of the cycle, and they won't be fixed overnight. So what can we actually do to make a difference? The answer is that if we all take small steps to improve our habits, it would collectively result in a big change, and this book teaches us exactly how to do this. Sophie Benson, a journalist specializing in sustainable fashion, will guide you through breaking down the issues and explaining how we can mitigate them at home: from the clothes we purchase to the way we care for them to how we dispose of them. With easy tutorials to follow: how to read a label and have a conscious closet, clear out, upcycling hacks, how to darn socks, and how to care for your jeans. Sophie will show you that small changes in habit can result in a more sustainable, eco-friendly wardrobe without breaking the bank. **Looking Good . . . Every Day** Nancy Nix-Rice, 2014-09-01. Any woman can look and feel lovely, regardless of her age, bank balance, or pant size. Looking Good Every Day defines a simple yet sophisticated standard for women to determine exactly which clothes and accessories will showcase their unique beauty. The points of connection method explains that the more characteristics that exist in common between a woman and her outfit, the more lovely she will look. It shifts emphasis from hiding her perceived figure challenges and focuses on spotlighting her personal assets. By choosing wardrobe additions in this way, everything in her closet will work together. She has more outfits from fewer garments, allowing her to buy higher quality garments without increasing her budget. Photography of real women, ranging from 22 to 80 years old and from size 4 to 24, illustrates the universal impact points of connection make in their appearance.
