Despite a promising start in the early 1990s, MERCOSUR has had a tumultuous and conflict-ridden history. Yet it has survived, expanding in membership and institutional scope. What explains its survival given a seemingly contradictory mix of conflict and cooperation? Through detailed empirical analyses of several key trade disputes between the bloc's two main partners, Argentina and Brazil, Gomez Mera proposes an explanation that emphasizes the tension between and interplay of two sets of factors: power asymmetries within and beyond the region and domestic level politics. Member states share a common interest in preserving MERCOSUR as a vehicle for increasing the region's leverage in external negotiations. Gomez Mera argues that while external vulnerability and overlapping power asymmetries have provided strong and consistent incentives for regional cooperation in the Southern Cone, the impact of these systemic forces on regional outcomes also has been crucially mediated by domestic political dynamics in the bloc's two main partners, Argentina and Brazil. Contrary to conventional wisdom, however, the unequal distribution of power within the bloc has had a positive effect on the sustainability of cooperation. Despite Brazil's reluctance to adopt a more active leadership role in the process of integration, its offensive strategic interests in the region have contributed to the durability of institutionalized collaboration. However, as Gomez Mera demonstrates, the tension between Brazil's global and regional power aspirations has also added significantly to the bloc's ineffectiveness. In a very engaging and accessible manner, Laura Gomez Mera has successfully applied the standing theories of international relations to the case of MERCOSUR. She has woven together international systemic and domestic theories as these pertain to the role and interaction of Brazil and Argentina, the two main middle powers in MERCOSUR. Through this analysis of regional integration and interstate conflict and cooperation, Gomez Mera thoroughly covers all the necessary methodological bases while also bringing her subject to life. The sectoral case studies she provides reflect a tremendous amount of original fieldwork; those combined with a sophisticated conceptual framework comprise a valuable contribution to the field.
