

enUS: For your safety

WARNING

TO AVOID DEATH OR SERIOUS INJURY, FOLLOW THESE SAFETY INSTRUCTIONS:

- Never use the Dräger-Tube unless you fully understand and strictly observe these Instructions for Use, and the pump's Instructions for Use.
- your employer has trained you how to use the Dräger-Tubes properly, and you have passed a test demonstrating to your employer that you can properly use the Dräger-Tubes!
- The Dräger-Tube content is toxic/caustic. Do not swallow, avoid skin or eye contact.
- Use the Dräger-Tubes only for their intended use (see „Intended use“ section, below)!
- Before each measurement, perform a leak test of the pump with an unused Dräger-Tube - otherwise, you may get a false reading.
- Both ends of the Dräger-Tube must be broken off before placing the Dräger-Tube into the pump - otherwise, measurement is impossible!
- When inserting into the pump, the black arrow on the Dräger-Tube must point toward the pump - otherwise, measurement is impossible.
- The Dräger-Tube contains an inner glass reagent ampoule (3) that must be broken, and its liquid contents emptied after measuring - otherwise, measurement is impossible!
- After breaking the inner ampoule by bending the outer Dräger-Tube, check if the heat shrink wrap around the tubing (2) is damaged. If it is, do not use the Dräger-Tube!
- To avoid false readings, never use Dräger-Tubes after expiration date printed on packaging has passed, or that have been stored in temperatures outside the limits printed on packaging!
- Use only Dräger pumps - non-Dräger pumps may cause false readings!

Intended use

The tube's purpose is to determine whether methyl and ethyl mercaptan is in the air or in technical gases at the precise time and place of measurement. The Dräger-Tube is intended only as a spot measurement.

Reaction principle

Measurement and evaluation

1. Ensure the measuring site has good lighting.
2. Break off both Dräger-Tube ends in the Dräger-Tube opener. (This may create sharp edges, so be careful.)
3. Hold the Dräger-Tube in a vertical orientation and insert it tightly down into the pump. The arrow must point toward the pump (4) - otherwise, measurement is impossible!
4. Evacuate 10 strokes to draw air or gas sample through the tube. Duration of measurement approx. 2.5 minutes.
5. Break the inner glass reagent ampoule by bending the Dräger-Tube approx. 45° at the point etched between the two black dots (1). Make sure that the inner ampoule is indeed broken.
6. Empty the ampoule's liquid content into the indicating layer and use the pump to carefully suck the liquid through the layer. Do not allow any of the ampoule's liquid content (yellow) to enter the pump. Wait 3 minutes before starting the evaluation.
7. Verify that the ampoule is completely emptied by comparing with an unused Dräger-Tube.
8. Multiply the value by factor F to allow for the actual atmospheric pressure. Observe possible cross sensitivities.
9. Flush the pump with air after operation by removing the Dräger-Tube and taking 3-4 strokes in clean air.
 - 1 ppm methyl mercaptan¹ = 2 mg methyl mercaptan/m³
 - 1 mg methyl mercaptan/m³ = 0.5 ppm methyl mercaptan (at 20 °C, 1013 hPa)
 - 1 ppm ethyl mercaptan² = 2.99 mg ethyl mercaptan/m³
 - 1 mg ethyl mercaptan/m³ = 0.33 ppm ethyl mercaptan (at 20 °C, 1013 hPa)

Technical data

Measuring range:	20 - 100 ppm	Number of strokes (N):	10
Standard deviation:	±10% - 15 %	Color change:	white → yellow-brown
Measuring time:	approx. 2.5 min		
Correction factor:	F = 1013 hPa (14.692 psi) / actual atmospheric pressure		

Ambient operating conditions

Temperature:	0 °C to 50 °C / 30 °F to 122 °F
Humidity:	3 - 90 mg/L, corresp. 50 % r. h. at 32 °C/89.6 °F)

Cross sensitivities

- Higher alkyl mercaptans (propyl and butyl mercaptan) are displayed with approx. the same sensitivity.
- Under the influence of H₂S a mercaptan measurement is not impossible, because H₂S is displayed as well with approx. double sensitivity.

Disposal

The Dräger-Tube packaging indicates order number, shelf life, storing temperature limits and serial number. Dispose of Dräger-Tube in accordance with the local state and federal regulations. Keep out of reach of children and unauthorized persons.

Questions
