

Research Paper on the Drug Abuse in the US

The aim of the research-based activity is to evaluate the fundamental techniques employed by the US government in fighting and eradicating the illicit drugs. The key goal of the report is to give a personal option on whether the method used in punishing the illegal drug brewers and offenders is justified or not. Due to the dominant cases of illicit brewers, buyers and sellers of drugs, United States of America enacted certain laws and norms to eradicate the mess.

Maintenance and Reduction of Illicit Drugs

The Congress of United States came up with a law which states that the police should arrest the drug offenders. The addicts after that should face public persecution as the police need to shot the individuals who break the law. The bill was proposed by the chief police of Log Angeles and stipulated that the drug abuser should face casualty punishment. Thus the law will ensure that there is zero tolerance in tackling the issue of narcotics.

Secondly, the former US President George Bush proposes an amendment to the America Constitution to legalize drugs such as marijuana. The individual debated the legalization of the drug trafficking will ensure that drugs are properly used. Furthermore, the president encouraged the drug test exercise among various groups including students and government employees as a precautionary measure in return.

Personal Option

In my option, I will agree with the proposed bill on the legalization mechanism of the illicit drugs although government needs to put more measures in ensuring that innocent citizens are not affected in the long run. Contrary, I will disagree with the bill concerning the persecution of the law offenders but instead propose that the state government need to provide civic education on the effects of drug abuse and establish various rehabilitation centers.

Conclusion

In summary, the research-based activity evaluated the illicit drug analysis in the US, the necessary measures and government policies of punishing the law offenders. The investigation established that though certain rules and mechanism are essential, more research and actions should be put into place (Retrieved 23 October 2016, from <http://www.drugpolicy.org/facts/new-solutions-drug-policy/brief-history-drug-war-0>).
