Chapter Section Seafaring Traders:

Seafaring, Trade, and Knowledge Transfer, 2025-12-18 Maritime politics changed over time and so did local perceptions and activities People involved in maritime commerce had to react to changes in government decrees or instructions This volume introduces political decisions and their background agents involved into maritime trade from private merchants over pirates to government institutions including military and practical questions of seafaring diets navigation maps etc and diplomacy but also looks into archaeological evidence and local perceptions of the maritime world covering the period from ca 900 to 1800 Contributors are Leonard Bluss Cai Ellen Xiangyu Patrizia Carioti John Chaffee Cheng Weichung Wim De Winter Ubaldo Iaccarino Kimura Jun Li Man Ma Guang Elke Papelitzky Angela Schottenhammer Mark Staniforth Mathieu Torck and Xu Zhixin Teaching Global History Alan J. Singer, 2012-04-27 Teaching Global History challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why It explains how to organize the curriculum around broad social studies concepts and themes and student questions about humanity history and the contemporary world All chapters include lesson ideas a sample lesson plan with activity sheets primary source documents and helpful charts graphs photographs and maps High school students responses are woven in throughout Additional material corresponding to each chapter is posted online at http://people.hofstra.edu/alan_j_singer The traditional curriculum tends to highlight the Western heritage and to race through epochs and regions leaving little time for an in depth exploration of concepts and historical themes for the evaluation of primary and secondary sources and for students to draw their own historical conclusions Offering an alternative to such pre packaged textbook outlines and materials this text is a powerful resource for promoting thoughtful reflection and debate about what the global history curriculum should be and how to teach it *Area Handbook for Tanzania* Allison Butler Herrick, 1968 **World History: Patterns of Interaction** McDougal-Littell Publishing Staff, 2004-03 **Surveying Christianity's African Roots (Paperback)** Jimmie Compton, 2019-05-31 pre Constantinian Christian intellect apparently found a richer thought environment in Africa than elsewhere It discovered itself in the intellectual centers of Africa before Europe had produced such centers Eventually it offered its rich wisdom to the cultures of the northern side of the Mediterranean Dr Thomas C Oden This book surveys the rational organized thriving Scripturally informed and Holy Spirit inspired roots of indigenous Christianity in Africa from 33 A D through 537 A D The intent is to supplement existing Church history resources *Jónsbók* Jana K. Schulman, 2010 **The Opium Business** Peter Thilly, 2022-10-18 From its rise in the 1830s to its pinnacle in the 1930s the opium trade was a guiding force in the Chinese political economy Opium money was inextricably bound up in local national and imperial finances and the people who piloted the trade were integral to the fabric of Chinese society In this book Peter Thilly narrates the dangerous lives and shrewd business operations of opium traffickers in southeast China situating them within a global history of capitalism By tracing the evolution of the opium trade from clandestine offshore agreements

in the 1830s to multi million dollar prohibition bureau contracts in the 1930s Thilly demonstrates how the modernizing Chinese state was infiltrated manipulated and profoundly transformed by opium profiteers Opium merchants carried the drug by sea over mountains and up rivers with leading traders establishing monopolies over trade routes and territories and assembling opium armies to protect their businesses Over time and as their ranks grew these organizations became more bureaucratized and militarized mimicking and then eventually influencing infiltrating or supplanting the state Through the chaos of revolution warlordism and foreign invasion opium traders diligently expanded their power through corruption bribery and direct collaboration with the state Drug traders mattered not only in the seedy ways in which they have been caricatured but also crucially as shadowy architects of statecraft and China s evolution on the world stage

Constitutions
Judith Pryor,2007-08-09 Bringing a postcolonial perspective to UK constitutional debates and including a detailed and comparative engagement with the constitutions of Britain s ex colonies this book is an original reflection upon the relationship between the written and the unwritten constitution Can a nation have an unwritten constitution While written constitutions both found and define modern nations Britain is commonly regarded as one of the very few exceptions to this rule Drawing on a range of theories concerning writing law and violence from Robert Cover to Jacques Derrida Constitutions makes a theoretical intervention into conventional constitutional analyses by problematizing the notion of a written constitution on which they are based Situated within the frame of the former British empire this book deconstructs the conventional opposition between the margins and the centre as well as between the written and unwritten by paying very close detailed attention to the constitutional texts under consideration Pryor argues that Britain s unwritten constitution and immemorial common law only take on meaning in a relation of difference with the written constitutions of its former colonies These texts in turn draw on this pre literate origin in order to legitimize themselves The unwritten constitution of Britain can therefore be located and dislocated in postcolonial written constitutions Constitutions is an excellent addition to the bookshelves of all students of the philosophy of law political theory constitutional and administrative law and jurisprudence
