The ^AOxford Handbook of Polling and Survey Methods Lonna Rae Atkeson, R. Michael Alvarez, 2018-07-25 The Oxford Handbook of Polling and Survey Methods divided into four main sections first examines data collection It then addresses data analysis and the methods available for combining polling data with other types of data and also cover analytic issues including the new approaches to studying public opinion for example social media the analysis of open ended questions using text analytic tools and data imputation The final section of the Handbook focuses on the presentation of polling results an area where there is a great deal of innovation *Environmental Policy* Michael E. Kraft, Barry G. Rabe, Norman J. Vig, 2023-10-20 As environmental issues continue to become more prevalent in society and surrounding policy challenges become more complex *Environmental Policy* once again brings together top scholars to evaluate the

changes and continuities in American environmental policy since the late 1960s and their implications for current policy. Students will learn to decipher the underlying trends, institutional constraints, and policy dilemmas that shape today's environmental politics as they evaluate approaches to future challenges.

Why Don't Women Rule the World? J. Cherie Strachan, Lori M. Poloni-Staudinger, Shannon Jenkins, Candice D. Ortobals, 2019-07-12. *Why Don't Women Rule the World* is unlike other texts in its comparative approach and strong theoretical underpinnings. It has interesting pedagogical features that will resonate with comparative scholars, Americanists, and those who integrate public policy analysis into the course. Rebecca E. Deen, University of Texas at Arlington. Why don't women have more influence over the way the world is structured? Written by four leaders within the national and international academic caucuses on women and politics. *Why Don't Women Rule the World* helps students to understand how the underrepresentation of women manifests within politics and the impact this has on policy. Grounded in theory with practical job-related activities, the book offers a thorough introduction to the study of women and politics and will bolster students' political interests, ambitions, and efficacy.

Key Features: A comparative perspective expands students' awareness of their own intersectional identities and the varying effects of patriarchy on women worldwide. A variety of policy areas highlighted throughout the book illustrates how different theories are applied to real-world situations. Multiple political engagement activities keep students engaged with the content.

Artificial Intelligence and Evaluation Steffen Bohni Nielsen, Francesco Mazzeo Rinaldi, Gustav Jakob Petersson, 2024-09-25. *Artificial Intelligence and Evaluation: Emerging Technologies and Their Implications for Evaluation* is a groundbreaking exploration of how the landscape of program evaluation will be redefined by artificial intelligence and other emerging digital technologies. In an era where digital technologies and artificial intelligence (AI) are rapidly evolving, this book presents a pivotal resource for evaluators navigating the transformative intersection of their practice and cutting-edge technology. Addressing the dual dimensions of how evaluations are conducted and what is evaluated, a roster of distinguished contributors illuminates the impact of AI on program evaluation methodologies. Offering a discerning overview of various digital technologies, their promises, and perils, they carefully dissect the implications for evaluative processes and debate how evaluators must be equipped with the requisite skills to harness the full potential of AI tools. Further, the book includes a number of compelling use cases demonstrating the tangible applications of AI in diverse evaluation scenarios. The use cases range from the application of GIS data to advanced text analytics. As such, this book provides evaluators with inspirational cases on how to apply AI in their practice, as well as what pitfalls one must look out for. *Artificial Intelligence and Evaluation* is an indispensable guide for evaluators seeking to not only adapt to but thrive in the dynamic landscape of evaluation practices reshaped by the advent of artificial intelligence.
